

We are committed to developing, implementing, maintaining, and constantly improving quality strategies and processes to ensure that all our aviation activities take place under a balanced allocation of organizational resources, aimed at achieving the highest level of quality and meeting ICAO Standards, GCAA applicable requirements as well as international standards while delivering our services. We aim to continually improve the service we provide to meet applicable standards as well as our clients requirements that we can justifiably be proud of.

Since the establishment in 2017, Geosky have gone thru a number of challenges, successfully gone thru and passed hundreds of Internal as well as External inspections and Audits that brought us to this position in international air transportation.

Airline GeoSky is proud of such achievements as:

- Member of IATA with Designator code D4;
- IOSA Registry;
- ACC3 Approved Operator with reg. number- LV/ACC3/GETBS-GEL;
- Third Country Authorized Operator – TCO code GEO-0005; and others.

The year 2025 brings many other challenges and achievements. The airline plans to expand its fleet with the addition of another B767 and B757 aircraft, allowing it to remain focused exclusively on cargo operations.

My responsibility, as the Accountable Manager and President of Airline GeoSky LLC is, to ensure the effective and proper functioning of the Quality System, including Management involvement in the review of the system established for continual improvement.

Our commitment is to:

- Continually improve Quality Support and the management of quality through the provision of all appropriate resources that will result in an organizational culture that fosters the best practices, encourages safety through quality, encourages communication between all departments, including contracted services;
- Enforce the management of quality as a primary responsibility of all Nominated Persons, department managers and employees;
- Clearly defines Nominated Persons and employee quality responsibilities in their assigned duties;
- Complying with and, wherever possible, exceed, legislative and regulatory requirements and standards;
- Ensure, that sufficient skilled and trained human resources are available to implement quality strategies and processes;
- Ensure, that all staff, including contracted services is provided with adequate and appropriate quality assurance information and training are provided to all employees;
- Continually improve our quality performance through management processes that ensure that relevant actions are taken and are effective;
- Ensure, that our contracted service providers' systems and services that support our operations meet our quality standards.

Airline GeoSky LLC CEO/ President  
**Mr. SHALVA Kiknadze**
